REPORT OF SCHOOL BOARD

To the Inhabitants of the School District of Dunbarton:

Your school board submits its annual report for the year 1932.

A vote of thanks has been extended to the Parent Teachers' Association, to John Untiet and those who assisted him, for installing electric lights in the South Dunbarton school house; also to those who helped in the improvement of the school yard.

The school board appreciates the work of those who so willingly helped to decorate the town hall for graduation.

Your school board has tried to economize on this year budget to a reasonable extent. We feel that by practicing too much economy we would impede the progress of the child. We have done only the repair work that seemed necessary.

Respectfully submitted,

WESTON R. LORD,
EVA A. TUCKER,

School Board.

From the foregoing table it is evident that our schools have suffered considerably from absences during the past year. Most of these were on account of illness. This unusual drop (more than 2%) from the preceding year's record is an unfortunate one, and means considerable loss, as the time and efforts of teachers are without avail if the pupils are not there to learn.

SCHOOL BUILDINGS AND EQUIPMENT

No extensive remodeling of any school has been undertaken during the past summer. The Montalona school was repainted inside. As it became necessary to use the Page's Corner school this year, a few minor repairs there were made. This school has temporary approval by the State Board, for use with a small class. If it is to continue in use, more extensive alterations should be made.

Last year, the need for satisfactory seats and desks at Montalona was pointed out. Each year's wear of the present furniture makes the need greater.

AGE OF ENTRANCE TO FIRST GRADE

Each year, parents request the privilege of sending to school some children who are too young to do well the work of the first grade. These parents make the mistake of thinking that if the child gets an early start, his chances of progress through the school course will be improved. The opposite is likely to be the case; for the child usually finds new tasks coming to him from year to year that are just a little too hard for a child of his age to grasp, while the more mature members of his grade can learn them easily. The result is frequently a failure to be promoted at some point in the course, with resulting discouragement; or more often a case of being just a little behind the others all the way along, and barely making the grade. If no pupil entered school until after he had passed his sixth birthday, the chances of success on the part of all would be improved; and a child would seldom if ever lose by it, if he should wait until he were seven years old before entering.

THE TREND TOWARD SCHOOL CENTRALIZATION

During the past twelve years, the number of one-room schools in New Hampshire has decreased from 803 to 512. The number of pupils transported, during the past six years, has increased more than 60%. The present public demand for economy in school expenditures seems to accelerate this tendency to close the small one-room school and transport

the pupils to larger centers. As improved highways and improved vehicles for transportation are provided, the greatest objections to centralization are being overcome.

Some day a two-room school at Dunbarton Centre can be made by remodeling the present building. Two teachers can be employed—one for the primary and one for the upper grades. This plan would make possible improved educational opportunities for all children within a reasonable transporting distance from the school, at no increase in cost after the original expense of providing the room. Those children who are now being transported to Page's Corner could about as easily be carried to the Centre. The resulting division of classes would lighten the burden of the Centre school teacher, who now has an enrollment of 28 pupils, a large group to handle effectively with all grades in one room.

CONCLUSION

Grateful acknowledgment is here made of the interest in the work of our schools, as shown by the increased number of visits by parents and other citizens, by the cooperation of the Community Club in carrying on an annual public speaking contest, and in many other ways. Let us continue to work together for the good of our children.

Respectfully submitted,

ALMON W. BUSHNELL,

Superintendent of Schools.
